

BARITE

SECTION 1. IDENTIFICATION

Product Identifier	BARITE
Other Means of Identification	Barium Sulfate
Product Family	Weighting Agent
Recommended Use	Drilling Fluid Additive.
Supplier	Bri-Chem Supply Ltd., Bay 4, 5510 - 3rd Street SE, Calgary, Alberta, T2H 1J9, Bri-Chem Supply, 403-252-5904, www.brichemsupply.com
Emergency Phone No.	ChemTrec, (800) 424-9300, 24/7

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification

Acute toxicity (Oral) - Category 4; Acute toxicity (Inhalation) - Category 4; Carcinogenicity - Category 1A

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS No.	%	Other Identifiers
Barium sulfate	7727-43-7	70-100	

Notes

Small amounts (less than reportable quantities) of respirable crystalline silica are present in this product.

SECTION 4. FIRST-AID MEASURES

First-aid Measures

Inhalation

Move to fresh air. Monitor for respiratory distress. If cough or difficulty breathing develops, evaluate for respiratory tract irritation, bronchitis or pneumonia.

Skin Contact

Wash contacted skin with soap and water. Launder contaminated clothing before re-use.

Eye Contact

Rinse with clean water for 15 minutes. Get medical attention.

Ingestion

If swallowed, have the conscious victim drink plenty of water. Never give anything by mouth to an unconscious or convulsing victim. Get medical attention.

Immediate Medical Attention and Special Treatment

Target Organs

Product Identifier: BARITE
Date of Preparation: January 21, 2016

Eyes, skin and respiratory system.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Not combustible. Use extinguishing agents compatible with product and suitable for surrounding fire.

Specific Hazards Arising from the Chemical

Non-flammable; does not support combustion.

Special Protective Equipment and Precautions for Fire-fighters

This product will not act as fuel to a fire.

A full-body encapsulating chemical protective suit with positive pressure SCBA may be necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment, and Emergency Procedures

Use the personal protective equipment recommended in Section 8 of this safety data sheet. Avoid contact with spilled material.

Environmental Precautions

It is good practice to prevent releases into the environment. Do not allow into any sewer, on the ground or into any waterway.

Methods and Materials for Containment and Cleaning Up

Collect material using shovels, vacuums or other methods that will not generate significant dust exposures to workers. If spill is large, keep public away from spill area. Reprocess, if possible. If not, collect in container appropriate for disposal method.

SECTION 7. HANDLING AND STORAGE

Precautions for Safe Handling

Handle in a manner that will minimize generation of dust. Avoid breathing dust. Ground containers during transfer of product. Compressed air should not be used for cleaning these dusts. Wash before eating, using the washroom or smoking. Launder contaminated clothing before re-use.

It is good practice to: avoid breathing product; avoid skin and eye contact and wash hands after handling.

Conditions for Safe Storage

Keep in a dry location in closed containers.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

(barium sulfate)

ACGIH® = American Conference of Governmental Industrial Hygienists. TLV® = Threshold Limit Value. TWA = Time-Weighted Average. 10 mg/m³ (inhalation fraction)

3 mg/m³ (respirable fraction)

OSHA = US Occupational Safety and Health Administration. PEL = Permissible Exposure Limits. 15 mg/m³ (total dust)

5 mg/m³ (respirable fraction).

Appropriate Engineering Controls

Airborne concentrations are anticipated to be below exposure limits, however, provide adequate ventilation to control dusts below exposure limits listed above. Emergency eyewash station should be available in the vicinity of potential splash exposure.

Individual Protection Measures

Eye/Face Protection

Wear chemical safety glasses with face shield to prevent contact with eyes.

Skin Protection

Wear protective clothing as required to prevent contact. Wear gloves (leather) to prevent contact with powder.

Respiratory Protection

Wear a NIOSH-approved respirator with dust cartridges if dust concentrations approach the listed exposure limits.

Product Identifier: BARITE

Date of Preparation: January 21, 2016

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Basic Physical and Chemical Properties

Appearance	Beige - grey powder. Particle Size: Not available
Odour	Odourless
pH	7.0 - 9.5
Melting Point/Freezing Point	1559 °C (2838 °F) (melting); Not available (freezing)
Initial Boiling Point/Range	Not applicable
Evaporation Rate	Not applicable
Vapour Pressure	Not applicable
Vapour Density (air = 1)	Not applicable
Relative Density (water = 1)	4.1 - 4.2
Solubility	Practically insoluble (less than 0.1%) in water
Decomposition Temperature	Not applicable
Other Information	
Physical State	Solid
Molecular Formula	BaSO ₄
Bulk Density	1714 - 2163 kg/m ³ (107 - 135 lb/ft ³)

SECTION 10. STABILITY AND REACTIVITY

Chemical Stability

Normally stable.

Possibility of Hazardous Reactions

Hazardous polymerization will not occur.

Conditions to Avoid

Water, moisture or humidity.

Incompatible Materials

Aluminum in high temperatures can cause explosions. Barium sulfate is also reported to be incompatible with phosphorus.

Hazardous Decomposition Products

Irritating or toxic substances may be emitted upon thermal decomposition.

SECTION 11. TOXICOLOGICAL INFORMATION

Small amounts (less than reportable quantities) of respirable crystalline silica are present in this product.

Skin Corrosion/Irritation

Contact with skin may cause slight irritation.

May cause skin irritation.

Serious Eye Damage/Irritation

May cause slight irritation.

May cause eye irritation.

STOT (Specific Target Organ Toxicity) - Single Exposure

Inhalation

Barium sulphate is considered a nuisance particulate but good industrial hygiene practices are recommended to keep dusts from becoming airborne.

May be irritating to the upper respiratory tract. May cause inflammation of mucous membranes and nosebleeds.

Ingestion

Swallowing this product is not expected to cause toxic effects.

STOT (Specific Target Organ Toxicity) - Repeated Exposure

Product Identifier: BARITE

Date of Preparation: January 21, 2016

Page 3 of 05

Long-term exposure to products containing crystalline silica may cause silicosis. Avoid inhalation. May cause long-term inflammation of mucous membranes of the eyes and respiratory tract. Prolonged and heavy exposures of Barium Sulfate may cause Baritosis, a benign pneumoconiosis. This benign pneumoconiosis does not result in impairment of ventilatory function, although signs of mild bronchial irritation may occur.

Respiratory and/or Skin Sensitization

Not considered a sensitizer.

Carcinogenicity

Not listed as a carcinogen by IARC, NTP, ACGIH.

Reproductive Toxicity

Sexual Function and Fertility

Not considered a reproductive hazard.

Germ Cell Mutagenicity

Not considered a mutagenic.

No information was located for: Development of Offspring, Interactive Effects

SECTION 12. ECOLOGICAL INFORMATION

No ecotoxicity or environmental fate data available.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal Methods

This product should be considered for recycling and re-use. If the product is not being recycled or re-used, dispose of in accordance with local, provincial/state and federal regulations.

SECTION 14. TRANSPORT INFORMATION

Not regulated under Canadian TDG Regulations.

Special Precautions for User Not applicable

Transport in Bulk According to Annex II of MARPOL 73/78 and the IBC Code

Not applicable

SECTION 15. REGULATORY INFORMATION

Safety, Health and Environmental Regulations

Canada

WHMIS Classification

Not a WHMIS controlled product.

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the SDS contains all of the information required by the Controlled Products Regulations.

Domestic Substances List (DSL) / Non-Domestic Substances List (NDSL)

All components of this product are listed on the DSL inventory or do not require listing.

SECTION 16. OTHER INFORMATION

SDS Prepared By Bri-Chem Supply Ltd
