

GILSONITE GM-P

SECTION 1. IDENTIFICATION

Product Identifier	GILSONITE GM-P
Other Means of Identification	Natural, resinous hydrocarbon
Product Family	HTHP Filtrate Control/Shale Control
Recommended Use	Drilling Fluid Additive.
Supplier	Bri-Chem Supply Ltd., Bay 4, 5510 - 3rd Street SE, Calgary, Alberta, T2H 1J9, Bri-Chem Supply, 403-252-5904, www.brichemsupply.com
Emergency Phone No.	ChemTrec, (800) 424-9300, 24/7

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification

Skin corrosion/irritation - Category 3; Serious eye damage/eye irritation - Category 2B; Specific target organ toxicity (single exposure) - Category 3

Other Hazards

Causes mild skin irritation.

Causes eye irritation.

May cause respiratory irritation.

On repeated exposure, may cause skin sensitization or an allergic reaction. May form combustible dust concentrations in air. Keep away from ignition source and do not let dust accumulate.

Dust may produce symptoms of cough and phlegm in workers with high exposures.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS No.	%	Other Identifiers
GILSONITE	12002-43-6	100	

Notes

Gilsonite should be considered as a substance that is not hazardous.

SECTION 4. FIRST-AID MEASURES

First-aid Measures

Inhalation

If respiratory irritation or discomfort is experienced, move to fresh air. If adverse symptoms develop, seek medical attention.

Skin Contact

Wash with soap and water. If adverse symptoms develop, seek medical attention.

Eye Contact

Immediately flush the contaminated eye(s) with lukewarm, gently flowing water for at least 15 minutes, while holding the eyelid(s) open. If eye irritation persists, get medical advice/attention.

Ingestion

Not required as this material should not be an acute ingestion problem.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Dry chemical, carbon dioxide, foam, water.

Specific Hazards Arising from the Chemical

Can ignite if strongly heated. Combustible dust. Powder may form explosive dust-air mixture. Dust explosivity limit = 20 oz/1000ft³.

Combustion forms carbon dioxide and water vapour and may produce oxides of nitrogen. Incomplete combustion may produce carbon monoxide.

Special Protective Equipment and Precautions for Fire-fighters

Firefighters must wear appropriate breathing apparatus and clothing.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment, and Emergency Procedures

Use the personal protective equipment recommended in Section 8 of this safety data sheet. Eliminate all ignition sources. Use grounded, explosion-proof equipment.

Environmental Precautions

It is good practice to prevent releases into the environment. Do not allow into any sewer, on the ground or into any waterway.

Methods and Materials for Containment and Cleaning Up

Stop or reduce leak if safe to do so. Dike spilled product to prevent runoff. Avoid generating dust. Collect using shovel/scoop or approved HEPA vacuum and place in a suitable container for disposal.

SECTION 7. HANDLING AND STORAGE

Precautions for Safe Handling

Avoid generating dusts. Eliminate heat and ignition sources such as sparks, open flames, hot surfaces and static discharge. Post "No Smoking" signs. Wear personal protective equipment to avoid direct contact with this chemical. Handle in accordance with good industrial hygiene and safety practice. It is good practice to: avoid breathing product; avoid skin and eye contact and wash hands after handling.

Conditions for Safe Storage

Store in an area that is: cool, dry, well-ventilated, separate from incompatible materials (see Section 10: Stability and Reactivity).

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

(GILSONITE)

ACGIH® = American Conference of Governmental Industrial Hygienists. TLV® = Threshold Limit Value. TWA = Time-Weighted Average. 3 mg/m³

OSHA = US Occupational Safety and Health Administration. PEL = Permissible Exposure Limits. 5 mg/m³

Dusts present no more hazard than common dust. An explosive limit of 5 mg/m³ has been established for a worker who spends 8 hours in such an atmosphere. At greater levels than this, special precautions should be taken or exposure times reduced.

Appropriate Engineering Controls

Use a local exhaust ventilation and enclosure, if necessary, to control amount in the air.

Individual Protection Measures

Eye/Face Protection

Product Identifier: GILSONITE GM-P

Date of Preparation: January 19, 2016

Page 2 of 05

Wear chemical safety goggles.

Skin Protection

Wear chemical protective clothing e.g. gloves, aprons and boots.

Where long-term exposure to vapours, distillates or solids, resulting from heating to temperatures above 288°C can be anticipated, protective clothing is recommended.

Respiratory Protection

In the absence of proper ventilation, use of an approved dust mask is advised. Where long-term exposure to vapours, distillates or solids, resulting from heating to temperatures above 288°C can be anticipated, respiratory equipment is recommended.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Basic Physical and Chemical Properties

Appearance	Black Granules. Particle Size: Not available
Odour	Mild
Odour Threshold	Not available
pH	Not available
Melting Point/Freezing Point	205 °C (melting); Not available (freezing)
Initial Boiling Point/Range	Not available
Flash Point	315 °C
Evaporation Rate	Not available
Upper/Lower Flammability or Explosive Limit	Not available (upper); Not available (lower)
Vapour Pressure	Not available
Vapour Density (air = 1)	Not available
Relative Density (water = 1)	1.05 - 1.08
Solubility	Insoluble in water; Not available (in other liquids)
Partition Coefficient, n-Octanol/Water (Log Kow)	Not available
Auto-ignition Temperature	Not available
Decomposition Temperature	Not available
Viscosity	Not available (kinematic)
Other Information	
Physical State	Solid
Molecular Formula	Not available
Molecular Weight	Not available
Bulk Density	Not available
Surface Tension	Not available
Critical Temperature	Not available
Electrical Conductivity	Not available
Vapour Pressure at 50 deg C	Not available
Saturated Vapour Concentration	Not available

SECTION 10. STABILITY AND REACTIVITY

Chemical Stability

Normally stable.

Possibility of Hazardous Reactions

Hazardous polymerization will not occur.

Incompatible Materials

Product Identifier: GILSONITE GM-P

Date of Preparation: January 19, 2016

Strong oxidizing agents.

Hazardous Decomposition Products

Carbon dioxide, carbon monoxide, oxides of nitrogen.

SECTION 11. TOXICOLOGICAL INFORMATION

No toxicological information is available. Treat as a nuisance dust.

Likely Routes of Exposure

Skin contact; eye contact; inhalation; ingestion.

Skin Corrosion/Irritation

Not available.

Serious Eye Damage/Irritation

Not expected to be chemically irritating but dust in eyes may be abrasive.

STOT (Specific Target Organ Toxicity) - Single Exposure

Inhalation

Should not be an irritant to respiratory tract at airborne concentrations below 5 mg/m³.

Ingestion

Not expected to be acutely toxic by ingestion.

No information was located for: Skin Corrosion/Irritation, Serious Eye Damage/Irritation, STOT (Specific Target Organ Toxicity) - Single Exposure, STOT (Specific Target Organ Toxicity) - Repeated Exposure, Respiratory and/or Skin Sensitization, Carcinogenicity, Development of Offspring, Sexual Function and Fertility, Germ Cell Mutagenicity, Interactive Effects

SECTION 12. ECOLOGICAL INFORMATION

No ecological information or environmental fate data is available.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal Methods

Dispose of in accordance with federal, provincial and local government regulations. Containers should NOT be re-used. Containers should be disposed of in accordance with government guidelines.

SECTION 14. TRANSPORT INFORMATION

Not regulated under Canadian TDG Regulations.

Special Precautions for User Not applicable

Transport in Bulk According to Annex II of MARPOL 73/78 and the IBC Code

Not applicable

SECTION 15. REGULATORY INFORMATION

Safety, Health and Environmental Regulations

Canada

WHMIS Classification

Not a WHMIS controlled product.

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the SDS contains all of the information required by the Controlled Products Regulations.

SECTION 16. OTHER INFORMATION

Product Identifier: GILSONITE GM-P

Date of Preparation: January 19, 2016

SDS Prepared By Bri-Chem Supply Ltd

Phone No. (403) 252-5904

Date of Preparation January 19, 2016

Disclaimer

This Health and Safety information is correct to the best of our knowledge and belief at the date of its publication, but we cannot accept liability for any loss, injury or damage which may result from its use. We shall ensure, so far as is reasonably practicable, that any revision of this Data Sheet is sent to all customers to whom we have directly supplied this substance, but must point out that it is the responsibility of any intermediate supplier to ensure that such revision is passed to the ultimate user. The information given in the Data Sheet is designed only as guidance for safe handling, storage, and the use of the substance. It is not a specification nor does it guarantee any specific properties. All chemicals should be handled only by competent personnel, within a controlled environment. Should further information be required, this can be obtained through the sales office whose address is at the top of this data sheet.
